

designed for you. designed for life.

What is it about a pool that can transform an ordinary summer day into something magical? From the splashes of a child's birthday party to the quiet calm of a sunset dinner, your backyard becomes a place where you can escape the day-to-day and create your own private world. It's a haven where you can kick back, relax and focus on what really matters: your family, friends, and yes, even yourself.

*At Royal Palm Pools, Inc. we help you create your personal outdoor oasis with custom pools that feature the beauty and reliability of steel while offering endless options.*

### relax

Pull up a lounge, stretch out and forget the outside world. The calm clear water of a Royal Palm pool is the perfect place to catch up on your reading, chat with old friends or simply soak up the warm summer sun.

### entertain

From 4th of July cookouts with the whole neighborhood to quiet cocktail parties for a few friends, a Royal Palm pool makes it easy to play host to memorable get-togethers and events. Just fire up the grill, turn on the music and let the party come to you.

### exercise

Enjoy the peaceful tranquility of early morning laps, get your groove on with water aerobics, or play sharks and minnows with the kids until your skin wrinkles. Whatever you do to stay fit, a Royal Palm pool makes working out fun and easy without a trip to the gym.

why royal palm?

*Explore the beauty and strength of steel.*

## the strength of steel

From sleek, sophisticated automobiles to iconic architectural marvels, steel has long been lauded for its strength, durability and beauty. At Royal Palm Pools, we use steel to create gorgeous pools with straight walls and graceful curves that can withstand the tremendous pressures of water and earth. We use only premium 14-gauge G235 zinc-coated galvanized steel to provide our customers the strongest, highest quality pools on the market.

## pool profiles

If you can dream it, we can design it. Our computer controlled manufacturing allows us to create virtually any shape or size. In addition, we offer a range of add-ons that let you completely customize every aspect of your pool.

## a step-by-step guide to creating your perfect outdoor oasis

No other feature is quite as important as the steps inviting you and your guests into a pool. While easy pool entry and exit are important, walk-in stairs serve a greater purpose. They're a place to interact with friends. Much like that island in your kitchen, people are naturally drawn to a pool's step and bench features. A pool's step offers a comfortable, relaxing place to cool off and carry on conversations. Royal Palm Pools offers several options for walk-in steps to best accommodate your needs.

### thermoplastic step

*A thermoplastic step offers basic entry into your pool for a great value. Individual seating and hydrotherapy jets are available for these one-piece steps. Various shapes and sizes fit all pool styles with consideration given to durability against the elements.*

### vinyl-covered exterior step

*An external steel step is a beautiful option that offers simplicity and sleek design.. No matter the size, this vinyl-covered steel step brings sophisticated style to whatever pool design you choose.*

### contour

*A step designed as an alternative to the traditional ladder, with consideration given to easier exit and entry into a pool. The contour step enhances the profile of the pool while limiting the amount of additional space needed to implement a design.*

### inside radius

*For a step option that blends nicely into the landscape of your pool, consider an inside radius step. With a steel step inside your pool, you can maintain the perimeter while creating a continuous design that emphasizes the overall shape.*

### wedding cake

*The design elements of wedding cake steel steps enhance the beauty of your already stunning swimming pool. The soft curves of a wedding cake style step offers the same benefits of an inside radius step while opening up the design option capabilities.*

## special features - spas

A warm, relaxing spa is the perfect complement to any pool. A spa's soothing warm waters and powerful jets combine to help you unwind from the stresses of the day and experience complete relaxation. Perfect for any season, a spa provides a warm, inviting oasis that allows you to enjoy your pool even when the weather turns cooler. For athletes and those suffering from aches and pains, a spa can help relax and heal tight muscles, providing relief at a moment's notice. Royal Palm Pools offers several spa options that can help you transform your pool into a peaceful, year-round paradise.

construction/warranty/safety

*Quality construction you can depend on*

1

*Pool location is determined*

2

*Elevation is set*

3

*Pool location is established and layed out*

4

*Excavation begins*

5

*Pool walls are set in place as the excavation continues*

6

*Adjustable alignment bracing is set and staked to anchor walls. Concrete footing is poured and walls are aligned*

7

*Pool is backfilled and aluminum coping or liner receptor is installed. Concrete decking is formed*

8

*Concrete decking, or optional concrete border is poured*

## innovative construction. remarkable design.

Each Royal Palm wall panel is made with the highest-quality 14-gauge G235 zinc-coated steel. The ribs are attached using a stud-welding process that won't burn through the face of the panel. To create a strong, reliable joint, we use a clinch-fastening system to attach corner gussets and flanges. Once manufactured, your pool can be back-filled prior to adding water which allows more decking options, or filled with water first. The result is a well-crafted pool that's as strong and reliable as it is beautiful.

9

*Sub deck is prepared for optional paver installation*

10

*Paver decking is installed*

11

*Aggregate bottom is hand troweled in place. Bottom is then cleaned and prepared for liner installation*

12

*Liner is installed, vacuumed in place and filling starts*

13

*Ladder, handrails, filter system and accessories are installed*

play it safe.

#### SAFETY INFORMATION

- *Always make sure your pool is secure from unattended or unauthorized use.*
- *Carefully supervise all swimmers. There is no substitute for adult supervision in your swimming pool environment – lives depend on it.*
- *Royal Palm Pools, Inc. does not recommend the use of diving equipment or slides. If used, they should only be used in accordance with the National Swimming Pool Institute and the manufacturer's safety recommendations.*
- *This brochure is for illustrative purposes only. Royal Palm Pools, Inc. makes no representations other than those stated in its written warranties. Any representations, contracts or statements made to the customer by the dealer/contractor regarding products produced by Royal Palm Pools, Inc. are strictly between the customer and the dealer/contractor.*

quality that lasts a lifetime.

#### LIMITED LIFETIME WARRANTY

Royal Palm Pools, Inc. warrants to the original purchaser, that the steel wall panels be free from defects in workmanship for the lifetime of the original purchaser. Royal Palm Pools, Inc. agrees to repair or replace any defective part without charge according to the following criteria:

- 1. This warranty is valid to the original purchaser only. This warranty will be effective upon completion of the installation, by an authorized Royal Palm Pools, Inc. dealer, once the purchase price has been paid in full and the Registration Card has been completed and returned to Royal Palm Pools, Inc. within 30 days of completion.*
- 2. In the event of failure, Royal Palm Pools, Inc will assess the product within ten days of receipt at our facility. All incoming freight charges will be paid for by the purchaser. If the panel is deemed defective, Royal Palm Pools, Inc. will repair or replace the product, reimburse the purchaser for incoming freight charges, and return the new or repaired product with no freight charges.*
- 3. Unit or assemblies such as pool liner, pool coping, pumps, filters, skimmers, heaters, or any accessories purchased for the use in the pool are subject to and carry the original manufacturer's warranty only. These products will not be covered by Royal Palm Pools, Inc.*
- 4. In order to obtain maximum use and enjoyment from your pool, you should keep your pool full of water at all times. Royal Palm Pools, Inc. is not responsible for any irregularities or imperfections which may result from the removal of water from your pool.*
- 5. Total liability to you under the warranty is limited to carrying out the terms of this warranty. No expressed, implied, or statutory warranty other than set forth herein is made or authorized to be made by Royal Palm Pools, Inc.*
- 6. Royal Palm Pools, Inc. has no liability for faulty installation of your pool, or for damage to panels which may result from faulty handling.*
